

**MARK E. BARKEY**  
Registered Professional Engineer  
Professor and Head  
Aerospace Engineering and Mechanics  
The University of Alabama  
(205) 348-1621  
mbarkey@eng.ua.edu

## Research Interests

Experimental and theoretical study of materials and solid mechanics, with emphasis on structural and material behavior when subjected to multiaxial cyclic loads. Research areas includes strength and durability analysis and testing of spot welded joints, multiaxial metal fatigue and cyclic plasticity, and thermo-mechanical fatigue.

## Education

1993	<b>University of Illinois at Urbana-Champaign</b>
1991	Doctor of Philosophy in Theoretical & Applied Mechanics
	Master of Science in Theoretical & Applied Mechanics
1989	<b>University of Missouri at Rolla</b>
	Bachelor of Science in Engineering Mechanics
	Minor in Mathematics

## Work Experience

### Administrative

8/18 - present

- **The University of Alabama**  
• Head, Aerospace Engineering and Mechanics--representing Department internally and externally, hiring and evaluation of faculty, class assignments, ABET, administration of Department budget.

### Research

8/95 - present

- **The University of Alabama**  
• Faculty, Aerospace Engineering and Mechanics--Experimental and analytical research in fatigue and structural behavior, supported by NASA, Chrysler, Ford, Sandia National Laboratories and others. Graduate and undergraduate teaching and supervision of various solid mechanics courses.

1/91 - 7/93

- **University of Illinois**  
• Fracture Control Program: Graduate Research Assistant

8/90 - 1/93

- National Center for Supercomputing Applications: Graduate Research Assistant

## Teaching

8/95 - present  
8/07 - 8/10

### **The University of Alabama**

- Faculty of Aerospace Engineering and Mechanics
- Adjunct Faculty, Mechanical Engineering

1/94 - 5/94  
8/89 - 5/93

### **University of Illinois**

- Visiting Assistant Professor of Mechanical and Industrial Engng.
- Teaching Assistant

## Industrial

2/08 - 5/10

### **Engineering Systems Incorporated (ESI)**

- Associate (Consultant): In-field strain gage data acquisition, mechanical testing, finite element analysis.

8/05 - 3/06

### **Metals and Materials Engineers (MME)**

- Practice Director, Engineering Mechanics: Finite element analysis with ABAQUS, manufacturing simulations, failure analysis, fatigue and fracture mechanics analysis, and testing. (while on sabbatical leave)

6/94 - 7/95

### **General Motors Corporation**

- Vehicle Systems Synthesis and Analysis: Senior Contact Engineer responsible for structural integrity and durability for vehicle chassis, frame, and components.

5/89 - 8/91

- Structural Life Development: Summer student intern.

## **Consulting**

Daniel Coker, Horton and Bell, Attorneys at Law, 2015-2016.

MBUSI, 2007.

Y. Kwon and Associates, 2004-2009.

Jim Walter Resources, Inc., 2004.

Registered Professional Engineer, State of Alabama, 2004-present.

Southern Company Services, 2003-2004, 2008-2010, 2012-2013, 2017.

Dr. J. Allen, J.D., 2002, 2008-2009.

LMS North America (formerly TecMath GmbH) 1997-1999.

TecMath (LMS) North America. 1996.

## **Awards and Honors**

*2021 SAE Forest R. McFarland Award*, in recognition of outstanding contributions towards furthering the goals of SAE's engineering events.

*University of Alabama 2015 Outstanding Commitment to Teaching Award*, awarded by the University of Alabama Alumni Association. Awarded October 2015.

*2003 SAE Arch T. Colwell Merit Award*, for SAE Technical Paper 2003-01-0695. Awarded April 2005.

*Tau Beta Pi Outstanding Faculty Award* at the University of Alabama for the 2003-2004 academic year. Awarded April 2004.

*Charles Henry Ratcliff Memorial Award* for Excellence in Undergraduate Teaching at the University of Alabama during the Spring, Summer, and Fall semesters of the previous year. Awarded April 2000, 2003, 2008, 2009, 2011, 2012, 2013, 2014, 2015, 2017, 2018, 2019, 2021.

*Outstanding Student Opinion of Instruction* award, Department of Aerospace Engineering and Mechanics, The University of Alabama, awarded 2017, 2018, 2019, 2020, 2021, 2022.

*Rated as an Excellent Teacher by Student Evaluations*, 1993 at the University of Illinois.

*University Fellowship*, 1989 the University of Illinois.

## **Other Activities**

Associate Editor for the SAE International Journal of Materials and Manufacturing, 2018-present.

Editorial Board for the Journal of Failure Analysis and Prevention, 2007-present.

Reviewer for various archival journals.

### **Department, College, and University Service**

Various AEM faculty search committees as member (2001-2012) and chair (2012, 2019, 2020, 2022).

AEM Graduate Program Director, 2001-2005.

AEM and COE Retention, Tenure, and Promotion Committees (2005-2017). Chair COE committee (2010, 2016).

UA Radiation Committee (2004-2015) and Radiation Safety Advisory Committee (2010-2013).

### **Membership in Professional and Honor Societies**

American Society of Mechanical Engineers (ASME) 1994-present.

American Institute for Aeronautics and Astronautics (AIAA) 2018-present

Society of Automotive Engineers (SAE) 1994-present.

Society of Experimental Mechanics (SEM) 1999-present.

American Society for Metals (ASM).

Phi Kappa Phi Honor Society.

Phi Theta Kappa Honor Society.

Tau Beta Pi Engineering Honor Society.

## **Graduate Student Thesis/Dissertations Directed**

18. Zach Hagan, M.S. Aerospace Engineering and Mechanics, The University of Alabama, December 2021. Thesis: “Development of a Life Methodology for a Friction Stir Pin Tool.”
17. Ahmed Korba, Ph.D. Aerospace Engineering and Mechanics, The University of Alabama, August 2017. Dissertation: “A Model of Thermal Aging of Hyper-Elastic Materials with an Application to Natural Rubber.”
16. Chanse Appling, M.S. Engineering Science and Mechanics, The University of Alabama, December 2015. Thesis: “Water Quench Thermal Fatigue Analysis of Grade P22 and P91 Steels.”
15. David Metz, Ph.D. Engineering Science and Mechanics, The University of Alabama, May 2013. Dissertation: “Fatigue Characterization of Friction Plug Welds.”
14. Eric Weishaupt, Ph.D. Engineering Science and Mechanics, The University of Alabama, May 2012. Dissertation: “Spot Welding of Advanced High Strength Sheet Steel.”
13. Karla Renee Horton, Ph.D. Interdisciplinary Studies, The University of Alabama, August 2011. Dissertation: “Microhardness, Strength and Strain Field Characterization of Self-Reacting Friction Stir and Plug Welds of Dissimilar Aluminum Alloys.”
12. Rahul Vadakke Veetil, M.S. Aerospace Engineering, The University of Alabama, August 2011. Thesis: “Analysis of Beveled Semi Elliptical Surface Cracks in Friction Stir Welded Plates made of Al-2195 Alloy.”
11. Avinash Reddy Tadi, M.S. Aerospace Engineering, The University of Alabama, May 2011. Thesis: “A Finite Element Analysis of a Boa Constrictor Skull and the Design of a Jaw Bone Transducer.”
10. Zhiyi Cao, M.S. Engineering Science and Mechanics, The University of Alabama, August 2010. Thesis: “Investigation of Taylor Impact Test of Isotropic and Anisotropic Material Through Geometrical Characteristics of Specimens.”
9. Brian Stoltz, M.S. Engineering Science and Mechanics, The University of Alabama, December 2008. Thesis: “Determination of Stress Intensity Factory for Corner Cracked Square Tubes.”
8. Varun Nare, M.S. Aerospace Engineering, The University of Alabama, December 2007. Thesis: “Eigen-Buckling Analysis of Stiffened Conical Shells.” Selected as Outstanding Thesis for the College of Engineering, 2008-2009.
7. Xin Zhang, Ph.D. Engineering Science and Mechanics, The University of Alabama, August 2007. Dissertation: “Strength Testing and Analysis of Multiply Spot Welded Joints.”
6. Guoqing Wang, Ph.D. Engineering Science and Mechanics, The University of Alabama, August 2005. Dissertation: “Durability and Dynamic Response Characteristics of Tensile-Shear Spot Welded Joints.”

5. Surya P. Chodimella, M.S. Engineering Science and Mechanics, The University of Alabama, May 2004. Thesis: "Development of a Novel Technique for the Determination of Impact Strength of Spot Welded Joints."
4. Han Jibin, M.S. Engineering Science and Mechanics, The University of Alabama, December 2001. Thesis: "Fatigue Analysis of Spot Welds Subjected to Variable Amplitude Combined Loading."
3. Nandeesh Madapadi, M.S. Engineering Science and Mechanics, The University of Alabama, August 2001. Thesis: "A Numerical Study of Ratchetting at a Stress Concentration."
2. Hong-Tae Kang, Ph.D. Engineering Science and Mechanics, The University of Alabama, December 1999. Dissertation: "Fatigue Analysis of Spot Welds Subjected to Combined Tension and Shear Loading."
1. Haiyang Wang, Ph.D. Engineering Science and Mechanics, The University of Alabama, December 1998. Dissertation: "Multiaxial Nonlinear Kinematic Hardening and Softening in Strain Space."

## **Courses Taught**

*Undergraduate:*  
(3 total)      Mechanics of Materials  
                         Mechanics of Materials Lab  
                         Processing and Structure of Materials

*Graduate:*  
(8 total)      Fatigue Analysis  
                         Theory of Elasticity  
                         Theory of Plasticity  
                         Intermediate Solid Mechanics  
                         Engineering Fracture Mechanics  
                         Applied Finite Element Analysis  
                         Introduction to Experimental Mechanics  
                         Finite Element Method in Engineering Mechanics

Experience developing and teaching distance education courses.

Student Evaluations of Teaching: Typically between 4.5-5.0 on a scale of 1-5, with class sizes ranging from 5-180.

## **ABET Leadership**

Prepared ABET Self Study Report (SSR) for BSAE degree program (2019). Program received six year evaluation period with no concerns or issues. Updated BSAE ABET continuous improvement process.

## **Professional Social Media**

LinkedIn Profile: <https://www.linkedin.com/in/mebarkey>

ResearchGate Profile: [http://www.researchgate.net/profile/M\\_Barkey](http://www.researchgate.net/profile/M_Barkey)

Google Scholar Profile: <http://scholar.google.com/citations?user=No7BBD0AAAAJ&hl=en>

## **Duties as Department Head**

Provide academic and scholarly leadership to encourage and facilitate academic and research activities of faculty, maintain academic standards, currency of the program curricula, a quality doctoral program, a spirit of cooperation, and a high level of achievement among faculty and staff.

- Provide academic and scholarly leadership to encourage and facilitate academic and research activities of faculty, maintain academic standards, currency of the program curricula, a quality doctoral program, a spirit of cooperation, and a high level of achievement among faculty and staff.
- Identify, recruit, and hire outstanding faculty.

- Administer the courses and other academic responsibilities of programs, including assignment of teaching duties to all faculty in your department.
- Manage the departmental budget and provide supervision for clerical and other professional and non-professional staff of the department.
- Maintain academic and administrative records.
- Evaluate both faculty and staff for merit salary raises, and recommend faculty for retention, tenure, and promotion (RTP); solicit RTP letters from external sources.
- Mentor faculty within the department, assisting in their continuous development and ultimate recognition for excellence as researchers, scholars, and educators.
- Take a leadership role in assisting the College and University to achieve their goals in regards to research development, scholarship, graduate student advising, and graduate degree production.
- Developing and enhancing the department's portfolio through extramural funding, impactful research, scholarly publications, and graduated PhD students.
- Conduct duties in a professional, ethical, and collegial manner.

#### **Additional Duties of Department Head**

- Oversee undergraduate and graduate advisory boards.
- Organize Department Honors Day.
- Coordinate the Department Industrial Advisory Board (IAB).
- Serve on Department Safety Committee during summer terms.
- Staff hiring and evaluation.
- Lead Department Faculty Meetings.
- Lead Department Executive Committee.

#### **Major Accomplishments**

- ABET self-study report and review that resulted in six-year accreditation term.
- Maintained enrollment in BSAE program of about 500 students; in 2022 the third most populous degree program in the College of Engineering.
- Directly hired five faculty as Department Head (one NSF Career award winner); searching for two additional faculty for 2023. Search chair of five other faculty hires as faculty member.
- Expanded the Department Industrial Advisory Board with new members at major corporations.
- American Society of Engineering Education (ASEE) top twenty degrees awarded in Aerospace Engineering, 2020; for the first time in Department history.

- Established and procured equipment for servo-hydraulic testing lab with more than ten test frames and actuators; high temperature, cryogenic, and room temperature test capabilities; as faculty member.
- Consistently recognized by students as an excellent teacher and communicator by Student Opinions of Instruction.

## Books and Monographs

Metal Fatigue Analysis Handbook, By Y. Lee, M. E. Barkey, and H. Kang. Butterworth-Heinemann/Elsevier, 2012.

Fatigue Testing, Analysis, and Design: Theory and Applications, By Y. Lee, R. Hathaway, J. Pan, and M. E. Barkey. Elsevier Science, 2004.

## Book Chapters

**Spot Weld Fatigue** by M. E. Barkey and S. Zhang, a chapter in Fatigue Testing, Analysis, and Design: Theory and Applications, 2004.

**Development of Accelerated Life Test Criteria** by Y. Lee and M. E. Barkey, a chapter in Fatigue Testing, Analysis, and Design: Theory and Applications, 2004.

**Stress-Based Uniaxial Fatigue Analysis**, Yung-Li Lee and Mark E. Barkey. Chapter 4: Metal Fatigue Analysis Handbook: Practical Problem-Solving Techniques for Computer-Aided Engineering, by Yung-Li Lee, Mark E. Barkey, and Hong-Tae Kang, Butterworth Heinemann, 2012.

**Stress-Based Multiaxial Fatigue Analysis**, Yung-Li Lee and Mark E. Barkey. Chapter 5: Metal Fatigue Analysis Handbook: Practical Problem-Solving Techniques for Computer-Aided Engineering, by Yung-Li Lee, Mark E. Barkey, and Hong-Tae Kang, Butterworth Heinemann, 2012.

**Strain-Based Uniaxial Fatigue Analysis**, Yung-Li Lee and Mark E. Barkey. Chapter 6: Metal Fatigue Analysis Handbook: Practical Problem-Solving Techniques for Computer-Aided Engineering, by Yung-Li Lee, Mark E. Barkey, and Hong-Tae Kang, Butterworth Heinemann, 2012.

**Fundamentals of Cyclic Plasticity Theories**, Yung-Li Lee and Mark E. Barkey. Chapter 7: Metal Fatigue Analysis Handbook: Practical Problem-Solving Techniques for Computer-Aided Engineering, by Yung-Li Lee, Mark E. Barkey, and Hong-Tae Kang, Butterworth Heinemann, 2012.

**Strain-Based Multiaxial Fatigue Analysis**, Mark E. Barkey and Yung-Li Lee. Chapter 8: Metal Fatigue Analysis Handbook: Practical Problem-Solving Techniques for Computer-Aided Engineering, by Yung-Li Lee, Mark E. Barkey, and Hong-Tae Kang, Butterworth Heinemann, 2012.

## Grants Awarded

38. “Flared Pole Fatigue Testing” \$32,500 Cooper Lighting, 1/1/23 to 6/15/23. M.E. Barkey (1.00). Pending.
37. “Testing of Carbon Fiber Tubes” \$24,723 Institute for Advanced Composites Manufacturing, 7/16/21 to 8/15/21. M. Kreger (0.82) and M.E. Barkey (0.18).
36. “Advanced Manufacturing of Lightweight Ground Mobility Systems for Vertical Lift” \$5,826,216 System of Systems in Security Consortium - SOSSEC, 8/16/20 to 8/15/24. B. Jordan (0.30), P. Allison (0.30), K. Davami (0.10), David MacPhee (0.10), Gregory Kubacki (0.10), M.E. Barkey (0.10).
35. “Innovation and Optimization of the Szego Mill for Reliable, Efficient, an Successful Up-scaling of the Deacetylation and Mechanical Refining Process for Biofuel Production” \$2,916,103 US-DOE, 1/1/21 to 9/30/25. L. Brewer (0.50), K. Davami (0.25), M.E. Barkey (0.25).
34. “(DURIP) An Experimental-Computational Study of Length-scale Based Toughness Enhancement in Graphene/Epoxy Nanocomposites Subjected to Cryogenic Temperature” \$238,488 AFRL, 7/15/20 to 7/14/21. S. Roy (0.50), M.E. Barkey (0.50).
33. “Numerical Analysis Tool to Predict Fatigue and Failure of Friction Stir Pin Tools for SLS Production” \$43,397 NASA, 7/23/18 to 1/15/20. R. Amaro (0.75), M.E. Barkey (0.25) (Transfer to 1.0 Barkey 8/19).
32. “Zn-based Liquid Metal Embrittlement During Resistance Spot Welding of Advanced High Strength Steels continued” \$122,141 Mercedes-Benz U.S. International, Inc., 4/1/18 to 3/31/19. L. Brewer (0.50), M.E. Barkey (0.25), P. Allison (0.08), J.B. Jordon (0.17).
31. “Fatigue Testing with Non-Proportional Loading” \$30,000 Caterpillar 5/1/18 to 12/31/19. P. Allison (0.34), J.B. Jordon (0.33), M.E. Barkey (0.33).
30. “Zn-based Liquid Metal Embrittlement During Resistance Spot Welding of Advanced High Strength Steels” \$123,628 Mercedes-Benz U.S. International, Inc., 2/10/17 to 12/31/17. L. Brewer (0.50), M.E. Barkey (0.25), J.B. Jordon (0.25).
29. “An Experimental Computational Study of Length-Scale Based Toughness Enhancement in Graphene/Epoxy Nanocomposites for Structural Light-weighting” \$429,799 8/7/17 to 2/14/21. S. Roy (0.75), M.E. Barkey (0.25).
28. “Lightweight, Light Duty Expeditionary Airfield Surfacing System” \$1,337,722 (\$890,994 Consortium for Energy, Environment and Demilitarization, \$446,728 UA cost share) 8/2/16 to 8/1/19. P. Allison (0.45), J.B. Jordon (0.45), M.E. Barkey (0.10).
27. “Zn-based Liquid Metal Embrittlement During Resistance Spot Welding of Advanced High Strength Steels” \$97,988 Mercedes-Benz U.S. International, Inc., 1/1/16 to 12/31/16. L. Brewer (0.75), M.E. Barkey (0.25).
26. “Friction Stir Welding System” \$200,000 Alabama Department of Commerce, 10/1/15 to 4/1/16. J.B. Jordon (0.30), L. Brewer (0.30), P. Allison (0.10), G. Thompson (0.10), Y. Guo (0.10) M.E. Barkey (0.10).

25. "Effect of Residual Stresses on Fatigue Damage in Self-Pierce Riveting" \$75,000 U.S. Automotive Materials Partnership, 5/1/15 to 11/1/15. J.B. Jordon (0.53), M.E. Barkey (0.47).
24. "Strength and Stiffness Characterization of Composite Tubes" \$1,800 Britt Engineering, 1/11/13 to 12/31/15. M. E. Barkey (0.5), J. Richardson (0.5).
23. "Mechanical Characterization of Heat Aged Rubber" \$90,862 Chrysler Corporation, 8/31/13 to 8/30/14. M. E. Barkey (1.0).
22. "Water Quench Thermal Fatigue Testing" \$15,622 Southern Company Services, 9/1/12 to 5/31/13. M. E. Barkey (1.0).
21. "UA Research Stimulation Program Optimized Condition Based Maintenance for Composite Structures" \$70,000 The University of Alabama, 6/16/12 to 6/15/14. S. Roy (0.2), M. E. Barkey (0.2), S. Burkett (0.2), S. Kotru (0.2), E. Sazanov (0.2).
20. "Fatigue Consulting" \$4,980 University of New Orleans, 5/16/12 to 6/15/12. M. E. Barkey (1.0).
19. "Fatigue Testing" \$4,949 University of New Orleans, 5/16/12 to 6/15/12. M. E. Barkey (1.0).
18. "Diagnostic Sensing for Predictive Maintenance of Aerospace Vehicles," \$500,000 NASA-MSFC 10/1/10 to 6/30/12. S. Roy (0.25), S. Burkett (0.25), M. E. Barkey (0.25), S. Kotru (0.25).
17. "Fatigue and Durability Characterization of Friction Plug Welded Joints," \$84,566, NASA-MSFC 1/21/09 to 1/20/10. M. E. Barkey (1.0).
16. "Mechanics of Materials Lecture and Lab: Integration and Collaboration," \$10,500 The University of Alabama Office of Assessment & Institutional Effectiveness, 5/16/08-5/15/09. M. E. Barkey (1.0)
15. "Durability Characterization of Metal Light Poles," \$25,150 (\$22,500 + \$2,650 supplement) (Cooper Lighting), 9/24/07 to 9/23/08. M. E. Barkey (1.0).
14. "Pressure Testing of Recyclable Transmission Lines for Inertial Fusion Energy Power Plant Tasks 2 & 3," \$87,397 (Sandia National Laboratories), 5/25/05 to 9/15/06. M. E. Barkey (1.0).
13. "Pressure Testing of Recyclable Transmission Line for Inertial Fusion Energy Power Plant," \$71,074 (Sandia National Laboratories), 8/9/04 to 9/30/04. M. E. Barkey (1.0).
12. "Strength Characterization of Welded and Weld-Bonded Joints," \$92,865 (\$50,000 DaimlerChrysler (cash)/\$20,000 DaimlerChrysler (in-kind)/\$22,865 UA), 6/16/04 to 6/15/05. M. E. Barkey (1.0).
11. "An Experimental and Numerical Analysis of Durability for Powertrain and Structural Vehicle Components," \$229,001 (\$77,073 CAVT/\$69,928 UA), 5/16/03 to 9/30/04. Y. Guo (0.50) and M. E. Barkey (0.50).
10. "An Analytical, Computational and Experimental Study of the Dynamics, Durability and NVH Characteristics of Automotive Structures: Year 4," \$159,370 (\$80,000 CAVT/\$110,797 UA & Partners), 5/16/02 to 8/15/03. M. E. Barkey (0.50) and S. McInerny (0.50).

9. "A Novel Technique for Determining Crash Performance of Spot Welded Joints," \$63,300 (\$25,000 CAVT/\$38,300 UA), 5/16/01 to 8/15/02. M. E. Barkey (0.50) and S. E. Jones (0.50).
8. "An Analytical, Computational and Experimental Study of the Dynamics, Durability and NVH Characteristics of Automotive Structures: Year 3," (\$80,000 CAVT, with UA and industrial match), 5/16/01 to 8/15/02. Lim (0.50) and M. E. Barkey (0.50).
7. "Fatigue Characterization of Riveted Aluminum Joints," \$29,925 (Ford), 1/01/01 to 5/01/01. M. E. Barkey (1.0).
6. "An Analytical, Computational and Experimental Study of the Dynamics, Durability and NVH Characteristics of Automotive Structures: Year 2," \$159,370 (\$80,000 CAVT/\$29,370 UA/\$50,000 Ford), 5/16/00 to 5/15/01. T. Lim (0.50) and M. E. Barkey (0.50).
5. "Fatigue Characterization of Adhesively Bonded Aluminum Coach Peel Joints," \$16,490 (Ford), 10/01/99 to 12/01/99. M. E. Barkey (1.0).
4. "Investigation of a Physically Based Multiaxial Hardening and Softening Parameter," \$4,986 (The University of Alabama Research Advisory Committee), 7/01/99 to 7/25/99. M. E. Barkey (1.0).
3. "An Analytical, Computational and Experimental Study of the Dynamics, Durability and NVH Characteristics of Automotive Structures: Year 1," \$183,370 (\$99,909 CAVT/\$33,461 UA/\$50,000 Ford, Edison Welding Institute), 5/16/99 to 5/15/00. T. Lim (0.50) and M. E. Barkey (0.50).
2. "Fatigue Analysis of Spot Welds under Combined Tension and Shear", Chrysler Challenge Fund, \$138,663 (\$69,530 Chrysler/\$69,133 UA), 6/15/98 to 6/15/00. M. E. Barkey (1.0).
1. "Multiaxial Plasticity Modelling for Fatigue Analysis", General Motors Corporation, \$10,000 (GM), 7/16/97 to 10/15/97. M. E. Barkey (1.0).
